NELS JOSEPH JOHNSON AND MARY ANN ORGILL JOHNSON

Nels Joseph Johnson was born June 26, 1870 in Peoa, Summit County, a son of Ola and Marna Walters Johnson. He married Elizabeth Moore at Coalville, July 18, 1896. After her death on June 8, 1898, he married Mary Ann Orgill March 22, 1900. Nels died May 22, 1950.

Mary Ann Orgill was born in Mt. Pleasant, Sanpete County, January 9, 1877, a daughter of Mark and Rachel Isabelle Smith Orgill. She died March 26, 1952.

Nels was the oldest son of Ola and Marna Walters Johnson. His family moved to Heber City when Nels was four years old. He attended public schools in Heber. His early years were spent in helping farmers

in the hay fields. When he reached young manhood he obtained his first job with Thackers Sawmill at Strawberry. He worked until he became the engineer at the mill.

In the winter months he obtained a job in Hatch's Flour Mill and learned the milling business. When the plane sifter system was installed in the Heber Mill by the Barnard and Leighs Company, he was the first miller to learn to run this system. Then this same company installed the system in mills in Oakley, Kamas and Wanship. They hired Mr. Johnson to go to these mills and instruct other millers in the plane sifter system. It was during this time that he met and married Elizabeth Moore. They lived at Oakley, where he supervised these three mills. It was here that the couple's two children were born, Merne and Nels. Elizabeth died shortly after the birth of her son, and the little Nels passed away five months later. After the death of his wife and child he came back to Wasatch county to work in Hatch's Mill again.

Millers at Kamas became unhappy with their work and wanted to quit their jobs so Nels and his brother A. O. Johnson purchased the mill in Kamas and this became Johnson's Brothers Milling Company.

In 1900 Nels married Mary Ann Orgill. They lived at Hatch's mill until after the birth of their first son. In 1902 Nels and his brother purchased the Midway Mill from Mark Jeffs. This partnership continued some fifteen years. Then a coin was flipped to see who would take possession of the Midway Mill. The coin fell in Nels' favor. He paid A. O. the sum of \$5,000 and gave him his share in the Kamas mill because the Midway Mill was considered a better location.

Midway Roller Mills drew on a large territory of Uintah Basin and Wasatch County, and friends that Nels had made in Summit County still patronized his business and did so until he died. Indians came from the reservation, and the government paid a percentage of the cost of grinding besides the toll the Indians paid so they would not be left waiting to have their grain ground. They came by the hundreds and camped overnight in the empty ponds and flat country south of the mill.

During World War I the mill ran day and night to produce flour for the government. This flour was packed in burlap sacks that weighed 140 lbs, when filled. The flour
